This is not a warranty by Seller that no other defective conditions exist, which there may or may not be. Buyer should estimate the cost of repair or replacement of deficient conditions prior to submitting an offer on this real estate. Buyer is advised however not to rely solely upon the representation of Seller made in this disclosure, but to conduct any inspections or investigations which Buyer deems to be necessary to protect his or her best interest." Nothing contained herein shall be construed to impose an affirmative duty on the Seller to conduct inspections as to the condition of this real estate. #### 32. Mold

According to the RI Department of Health, "Exposure to a large number of mold spores may cause allergic symptoms such as watery eyes, runny nose, sneezing, itching, coughing, wheezing, difficulty breathing, headache, and fatigue. Repeated exposure to mold can increase a person's sensitivity, causing more severe allergic reactions. Testing for molds is very difficult and expensive and cannot determine whether health effects will occur. If you can see or smell mold it needs to be cleaned up. Sources of moisture may include: flooding, damp basement or crawl space, leaky roof, leaky plumbing, humidifiers, poorly ventilated areas, and/or clothes dryer vented indoors."
